

Developing a strategy for the GenAI era Vol. 2

Wolfgang Hilberg (*1932 †2015)

➤ scaledprinciples.org

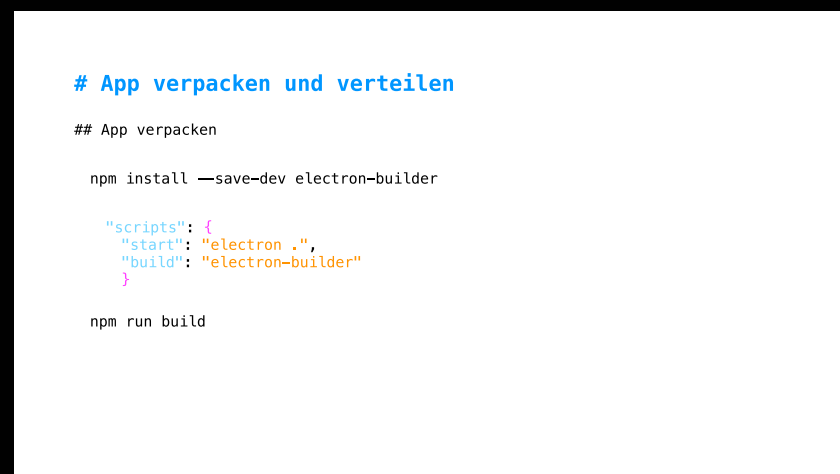

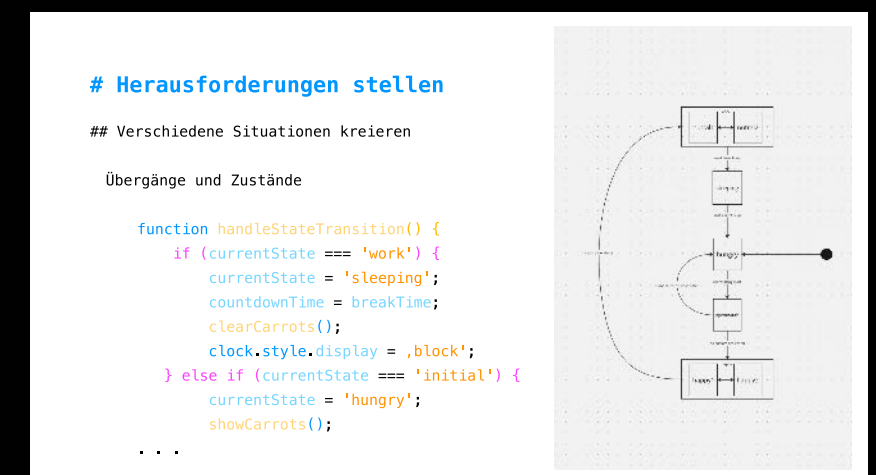

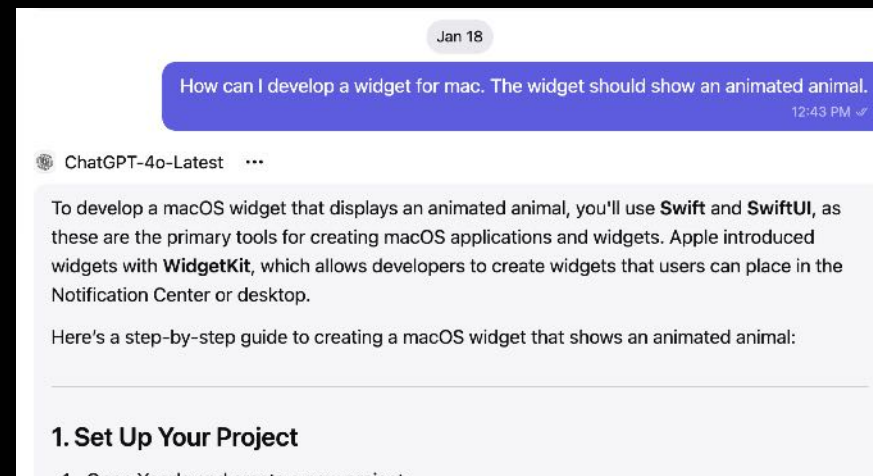

ScALeD Agile Lean Development - The Principles

Agile methods are becoming ever more popular, and a growing number of companies has adopted agile practices on a large scale. But successfully scaling agility is challenging. As companies, projects and teams differ, there is no silver bullet solution to...

The Hype about the Vibe

- Desktop APP
- No Coding Experience
- 2 Weeks

The Challenge

Through competition,
everything is subject to
evolution

GenAI practices and technologies following the same flow of evolution

GenAI accelerates this flow of evolution for most businesses

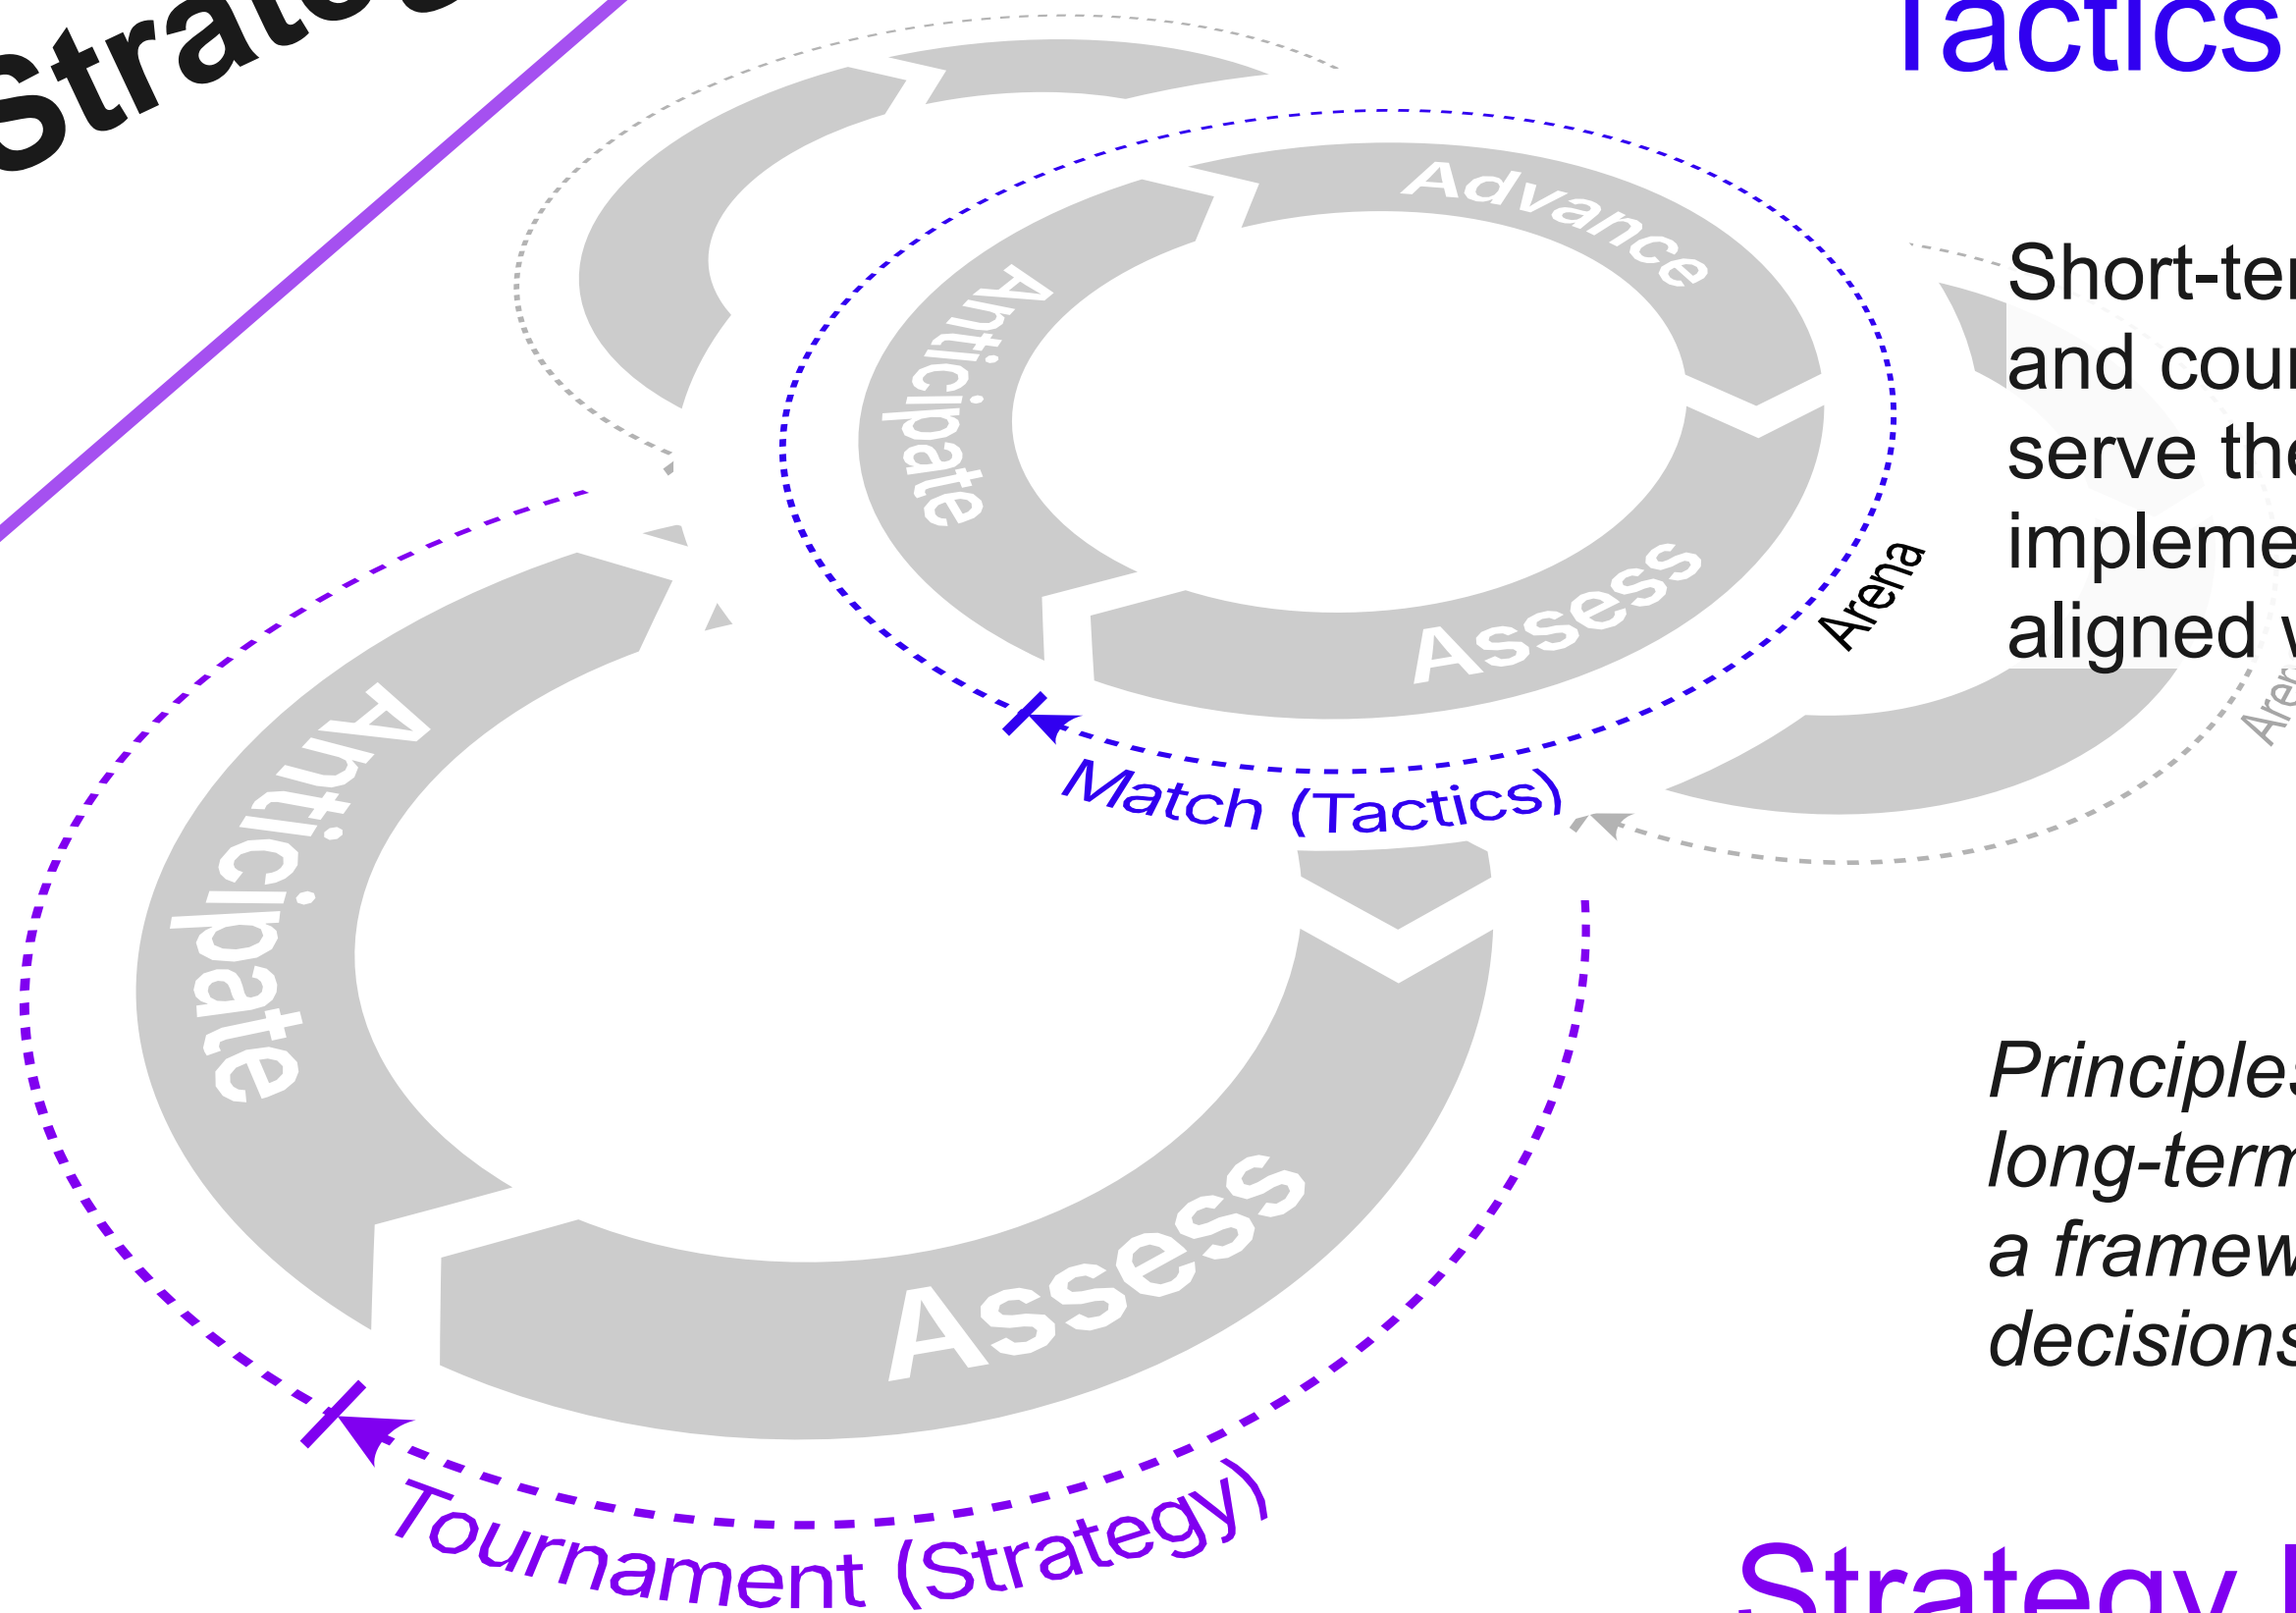

Strategy

Tactics scores goals

Short-term goals, plans and courses of action that serve the purpose of direct implementation and are aligned with a strategy.

Principles, doctrines, long-term goals to provide a framework for detailed decisions

Strategy builds Arenas

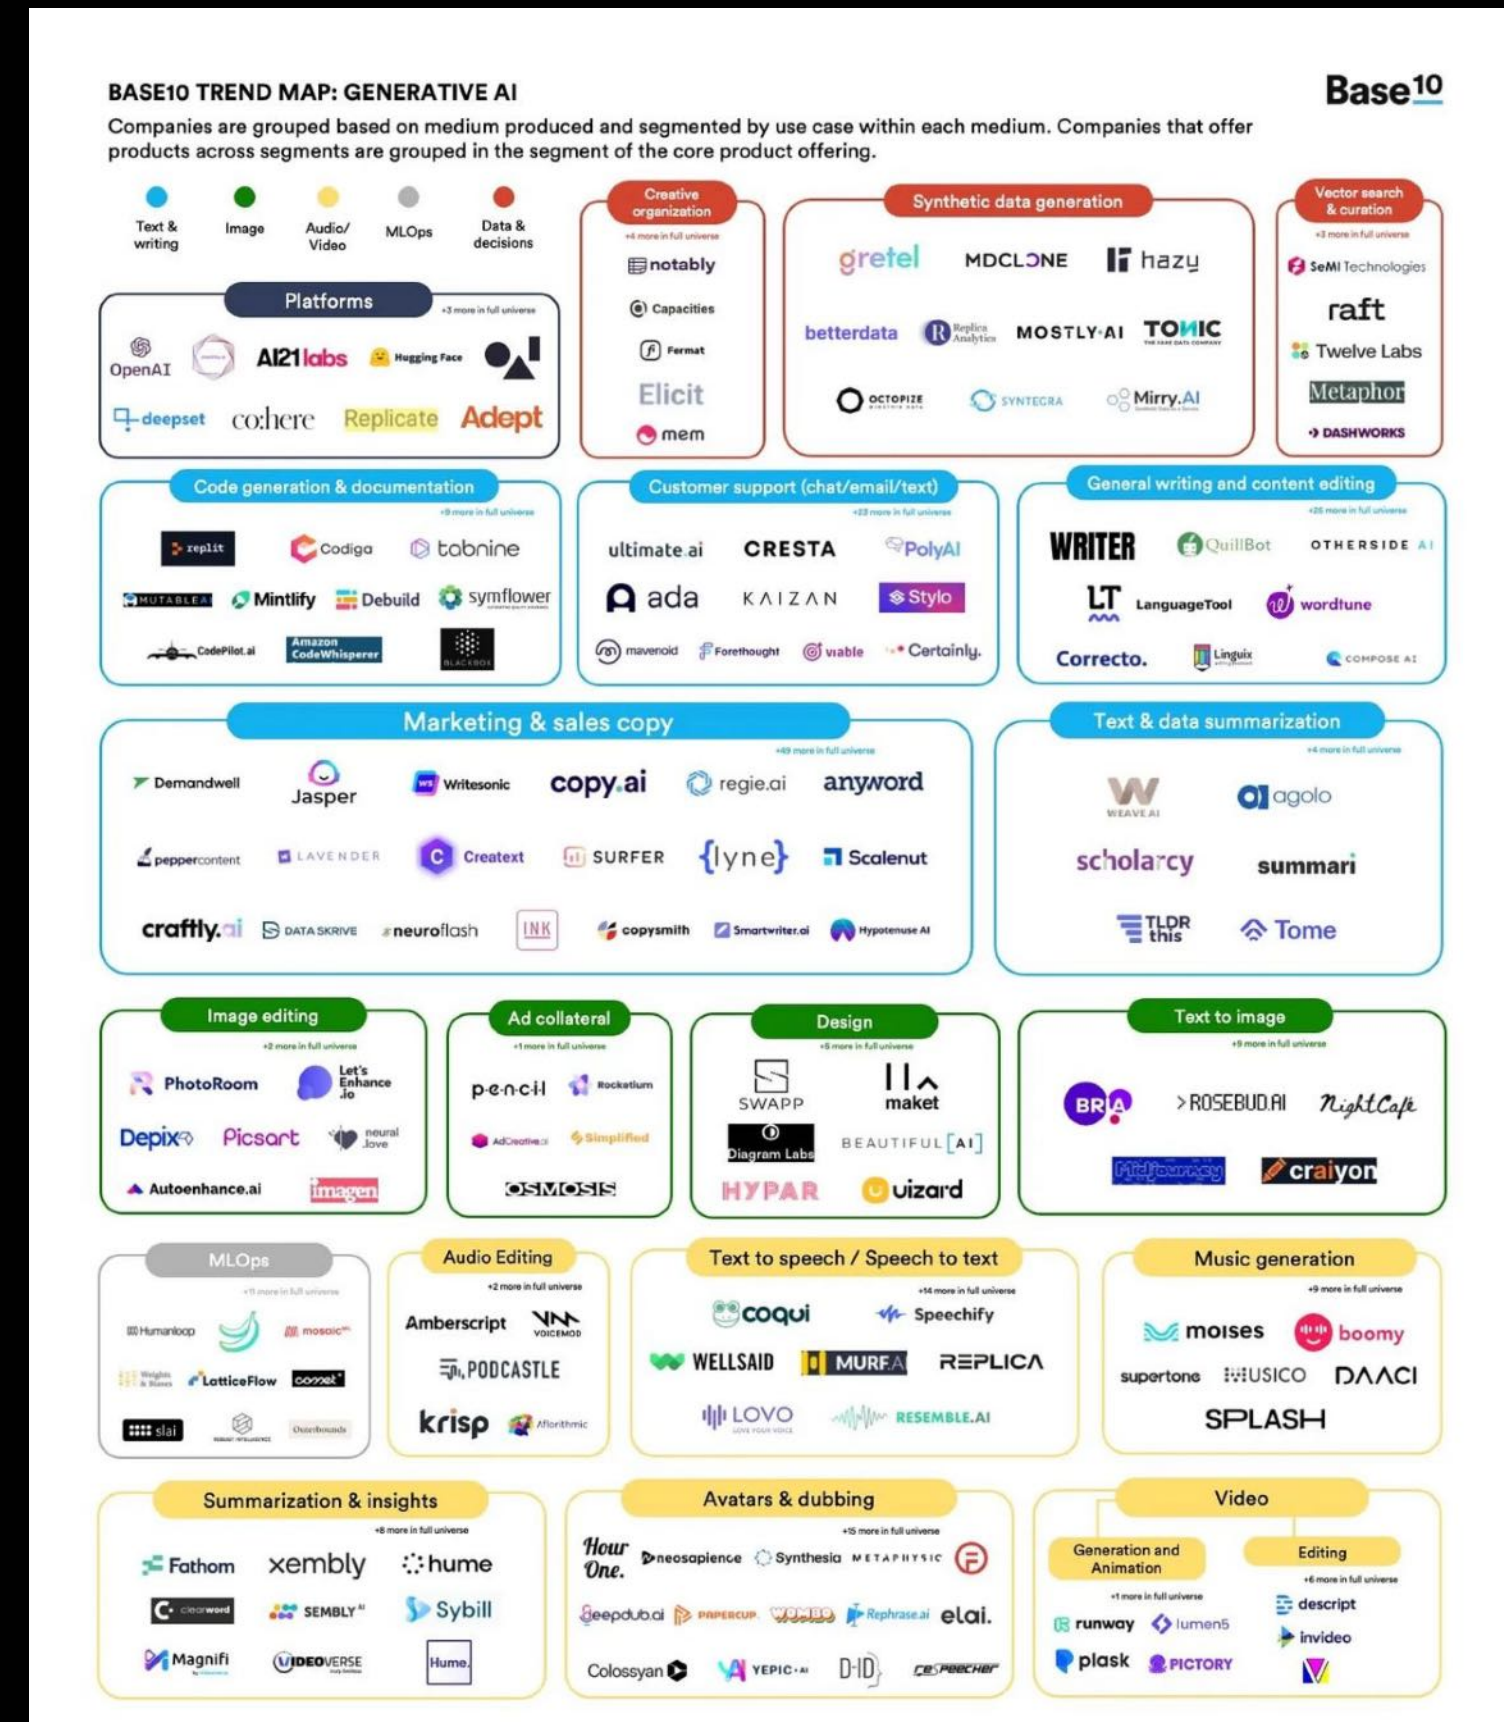

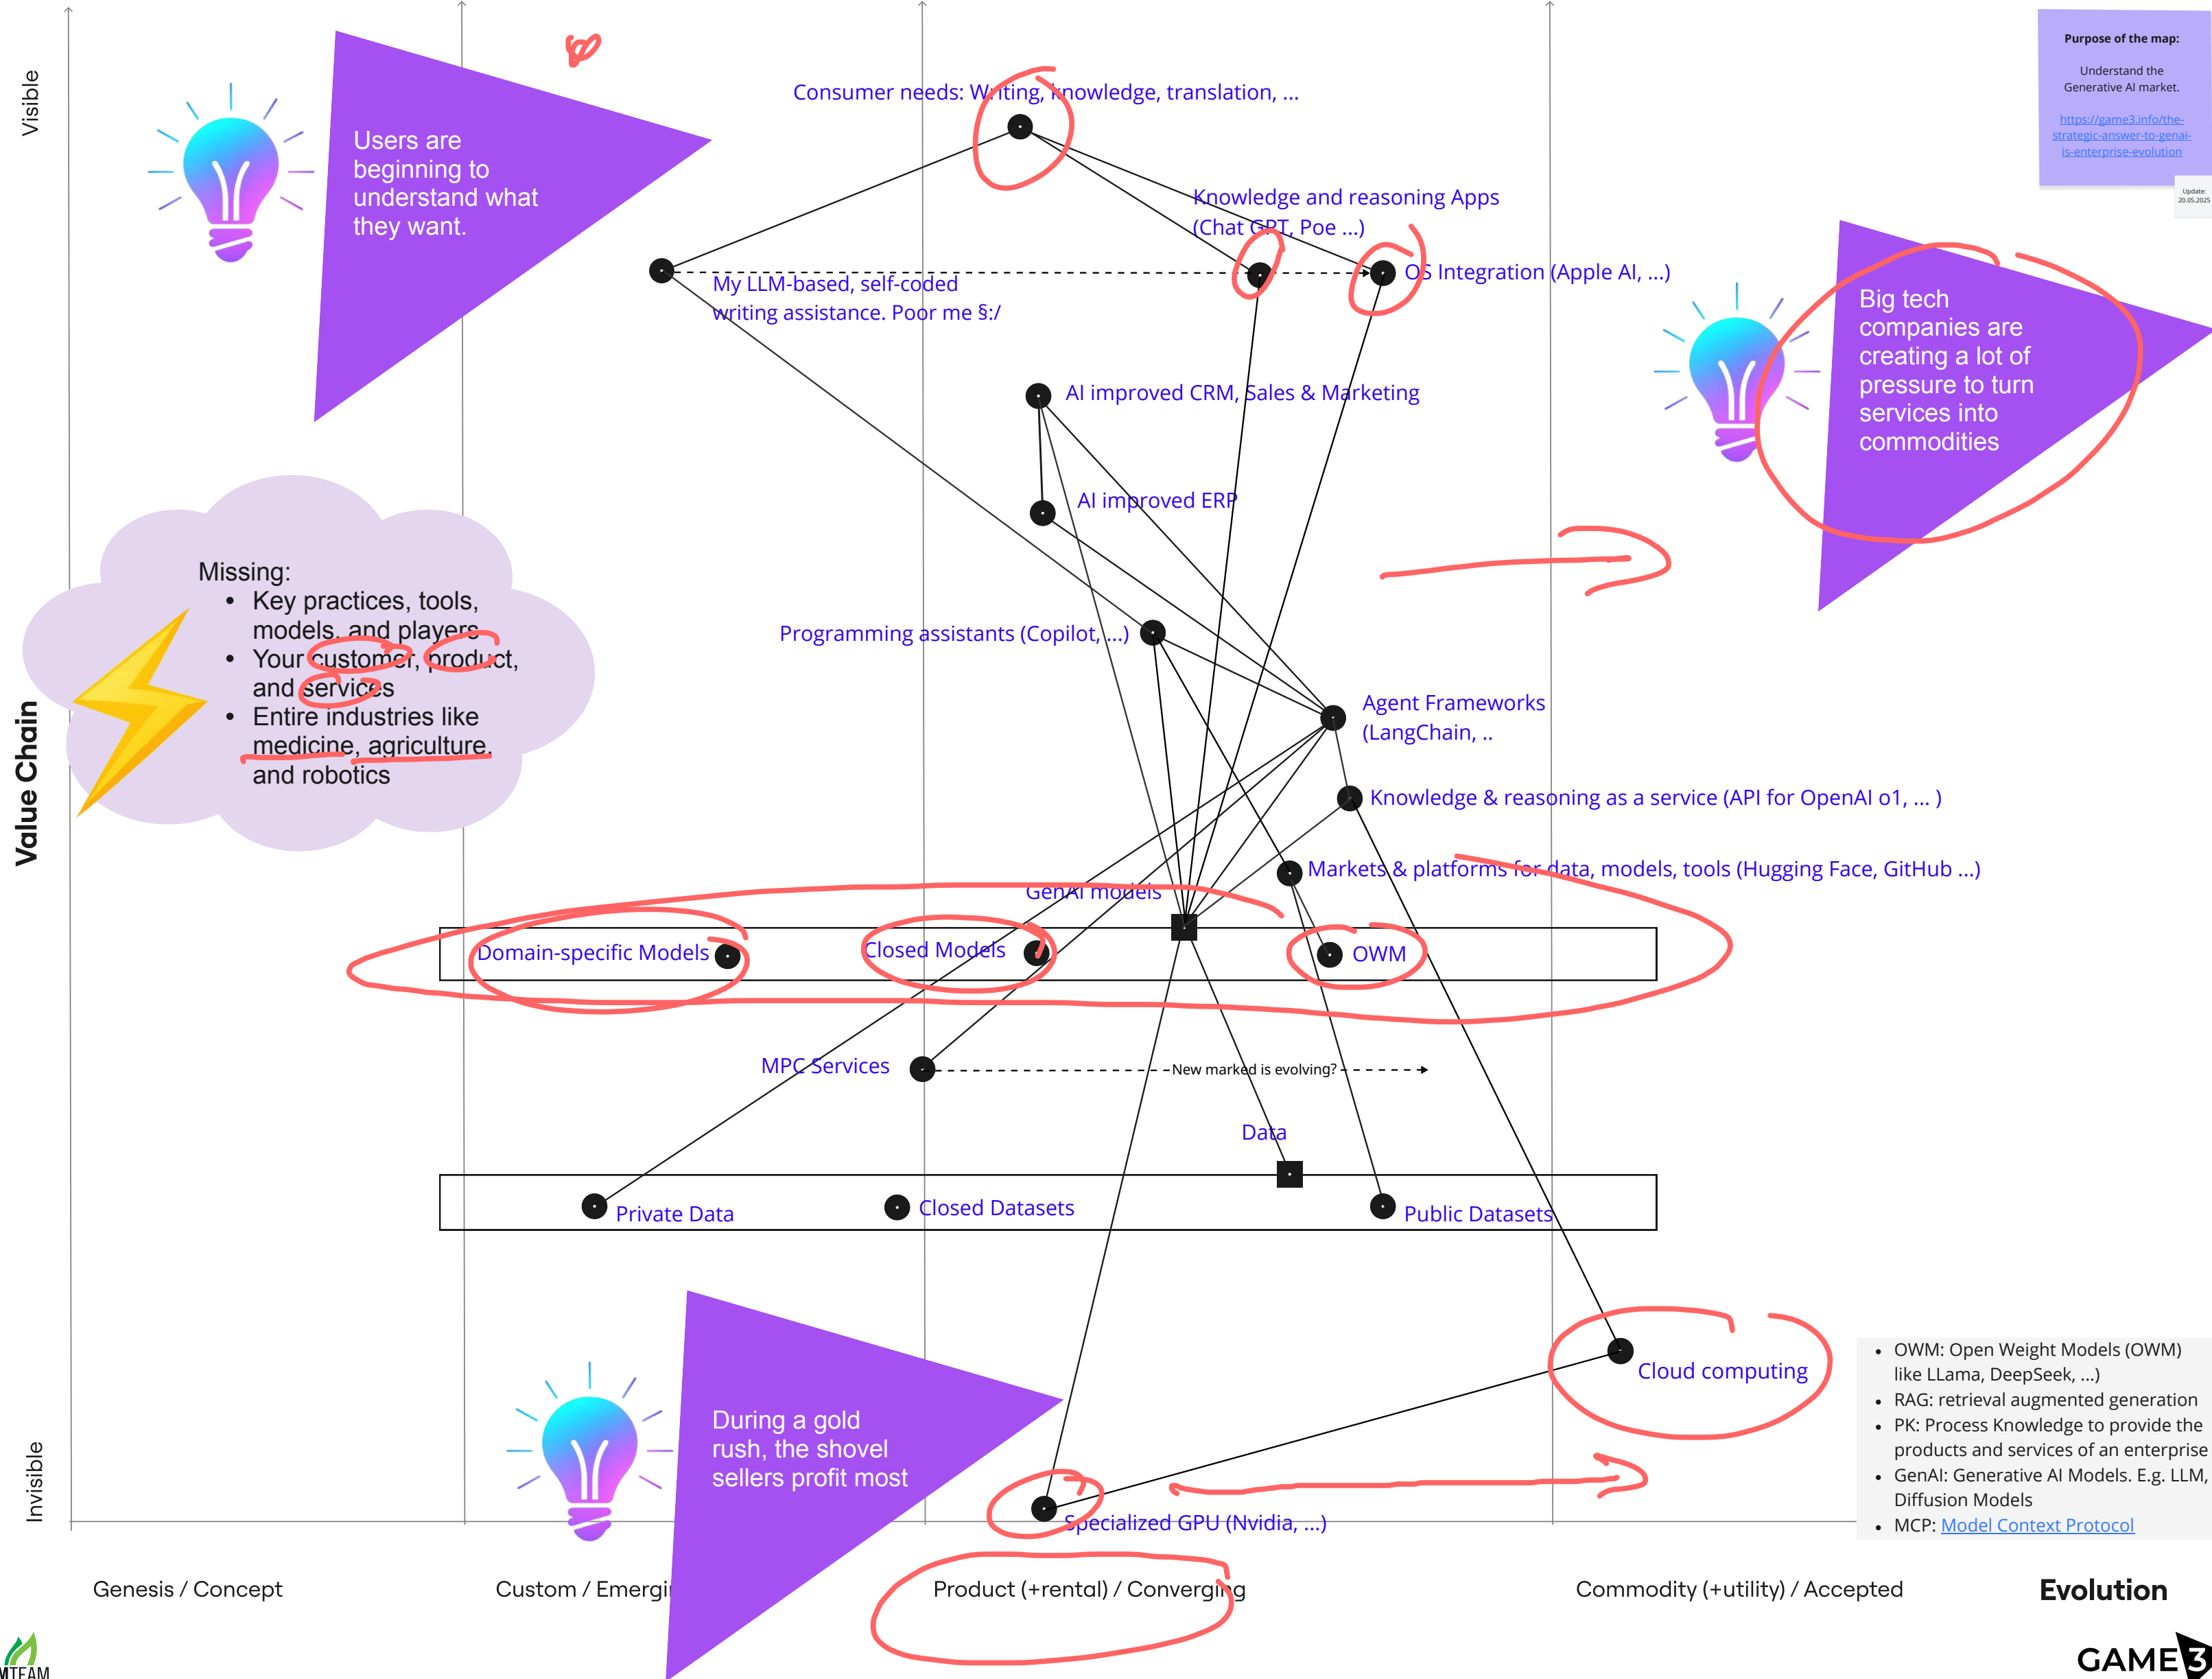

Assess the terrain

- No position, distances
- No relationships (roads, streets)
- No distinctive landscape features (mountains, lakes, rivers)
- Partners or competitors?

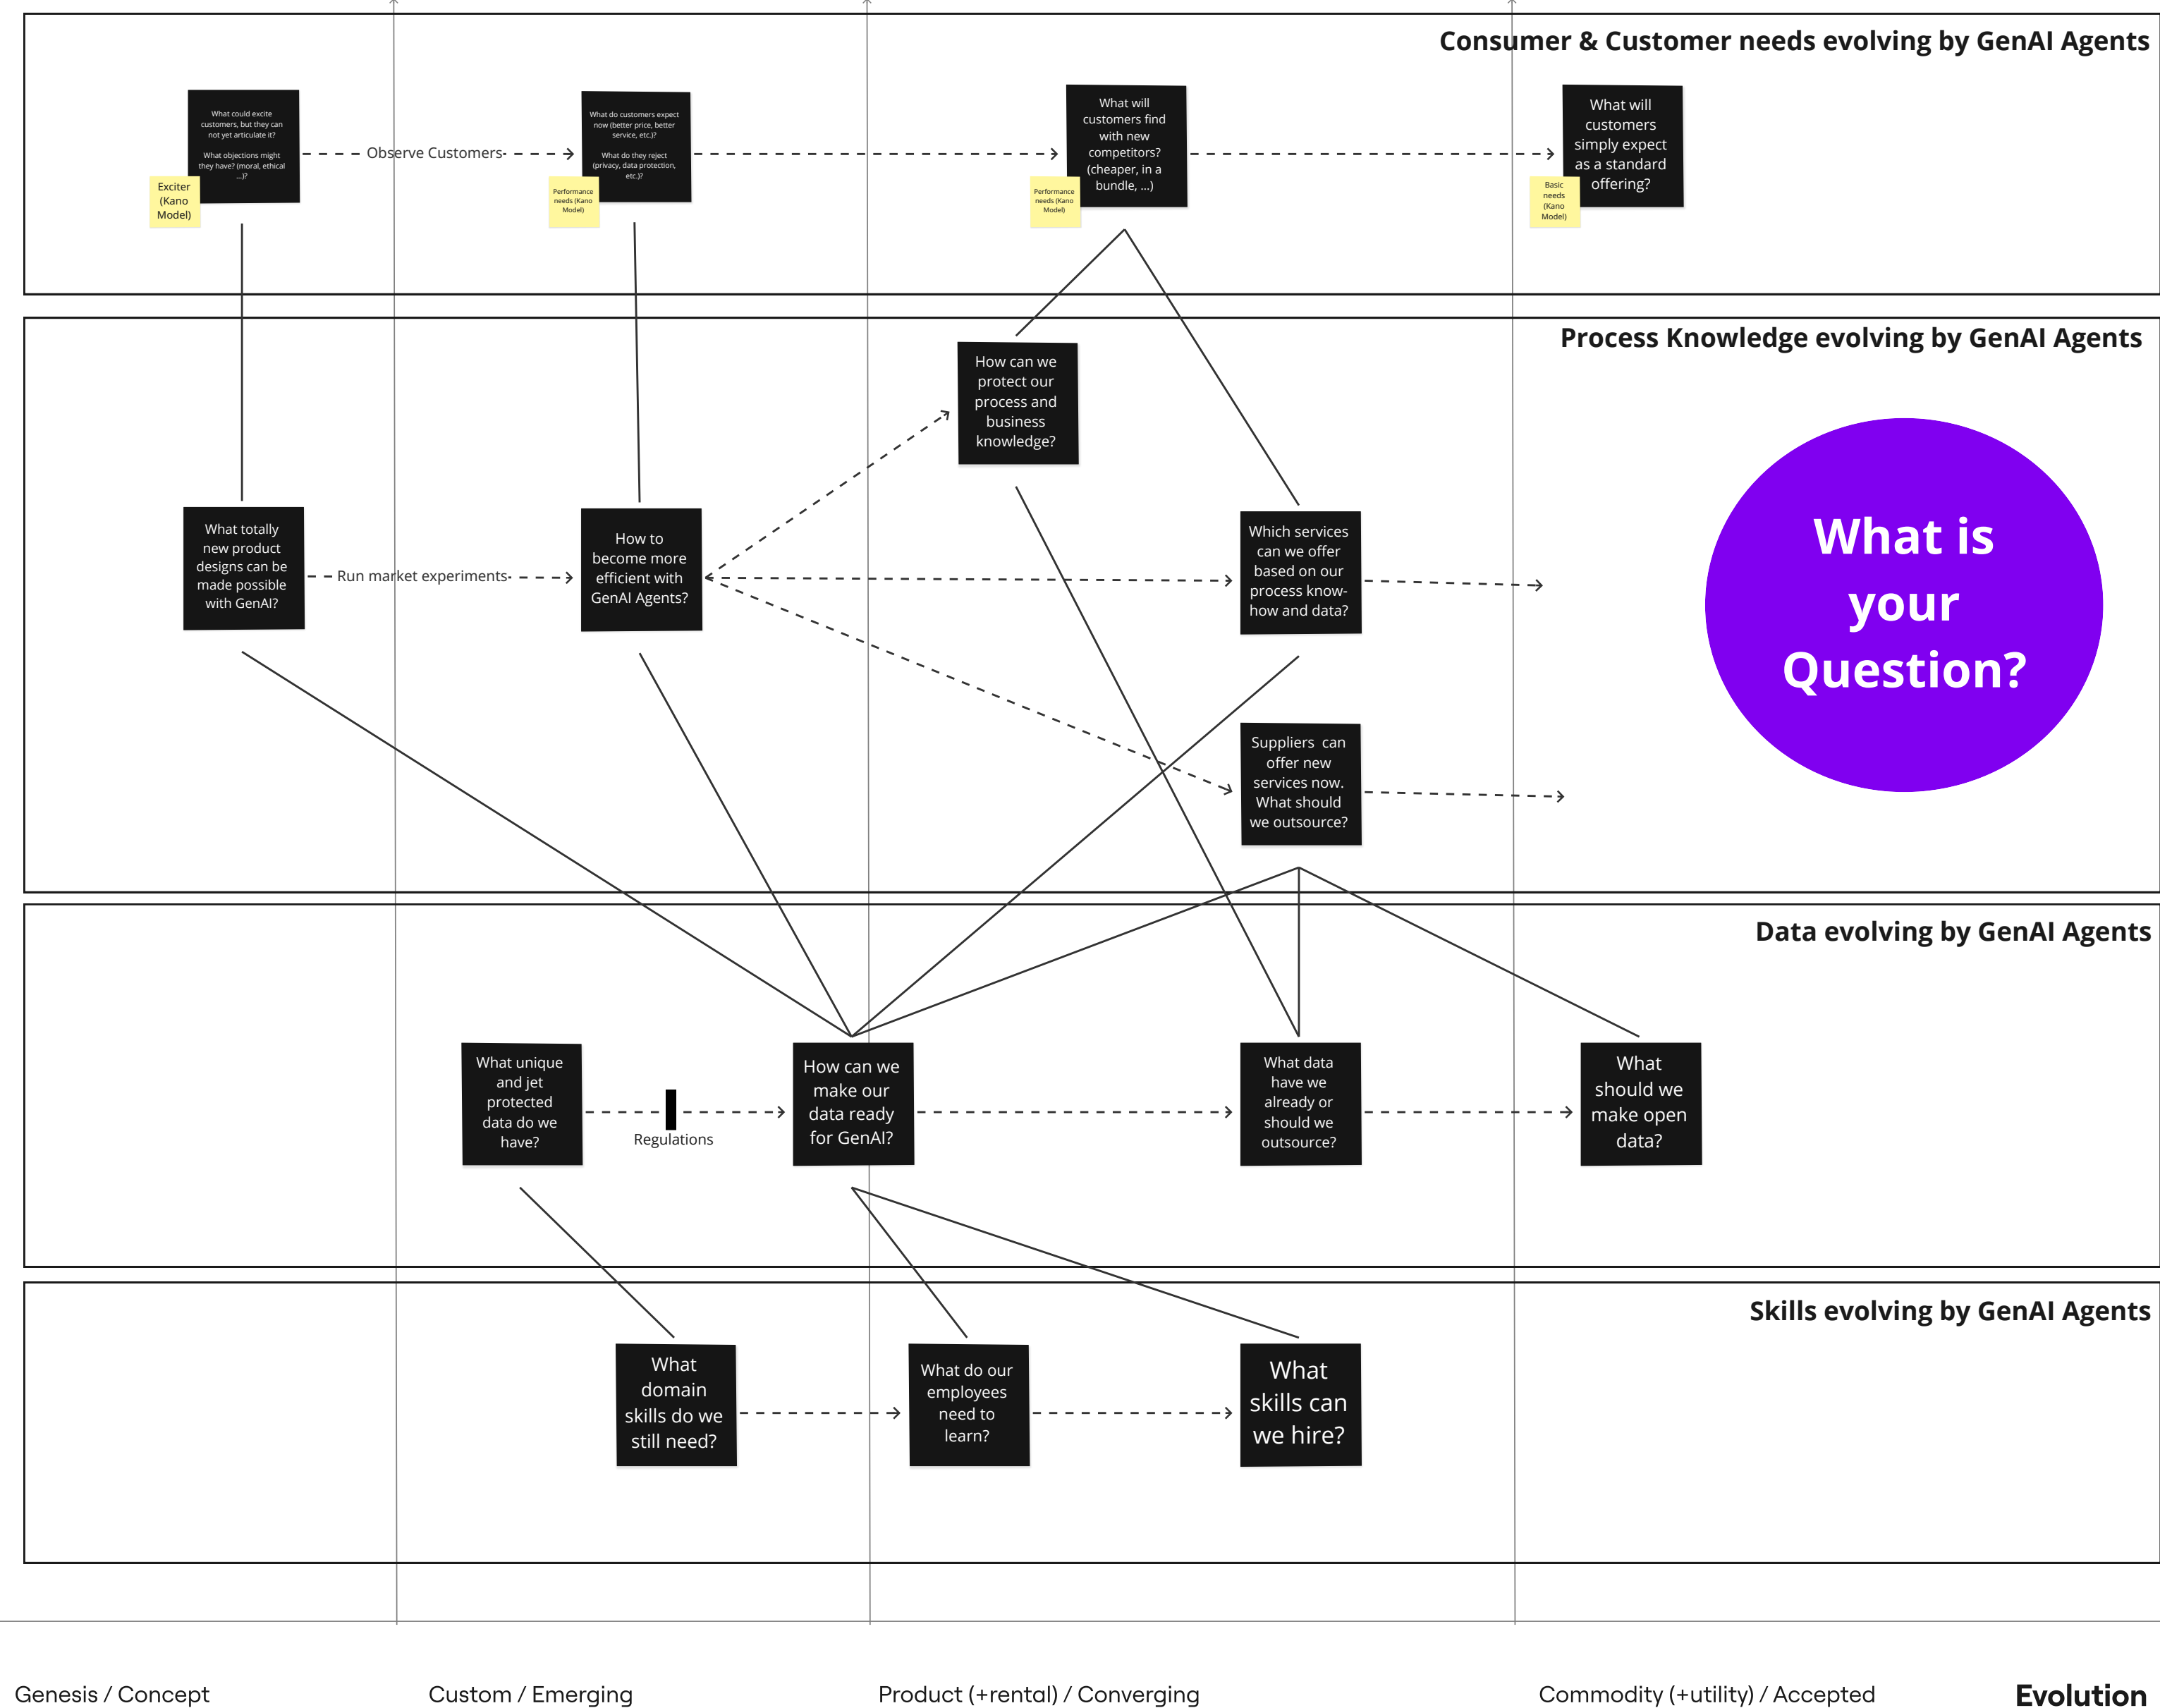

Simon Wardley has a solution

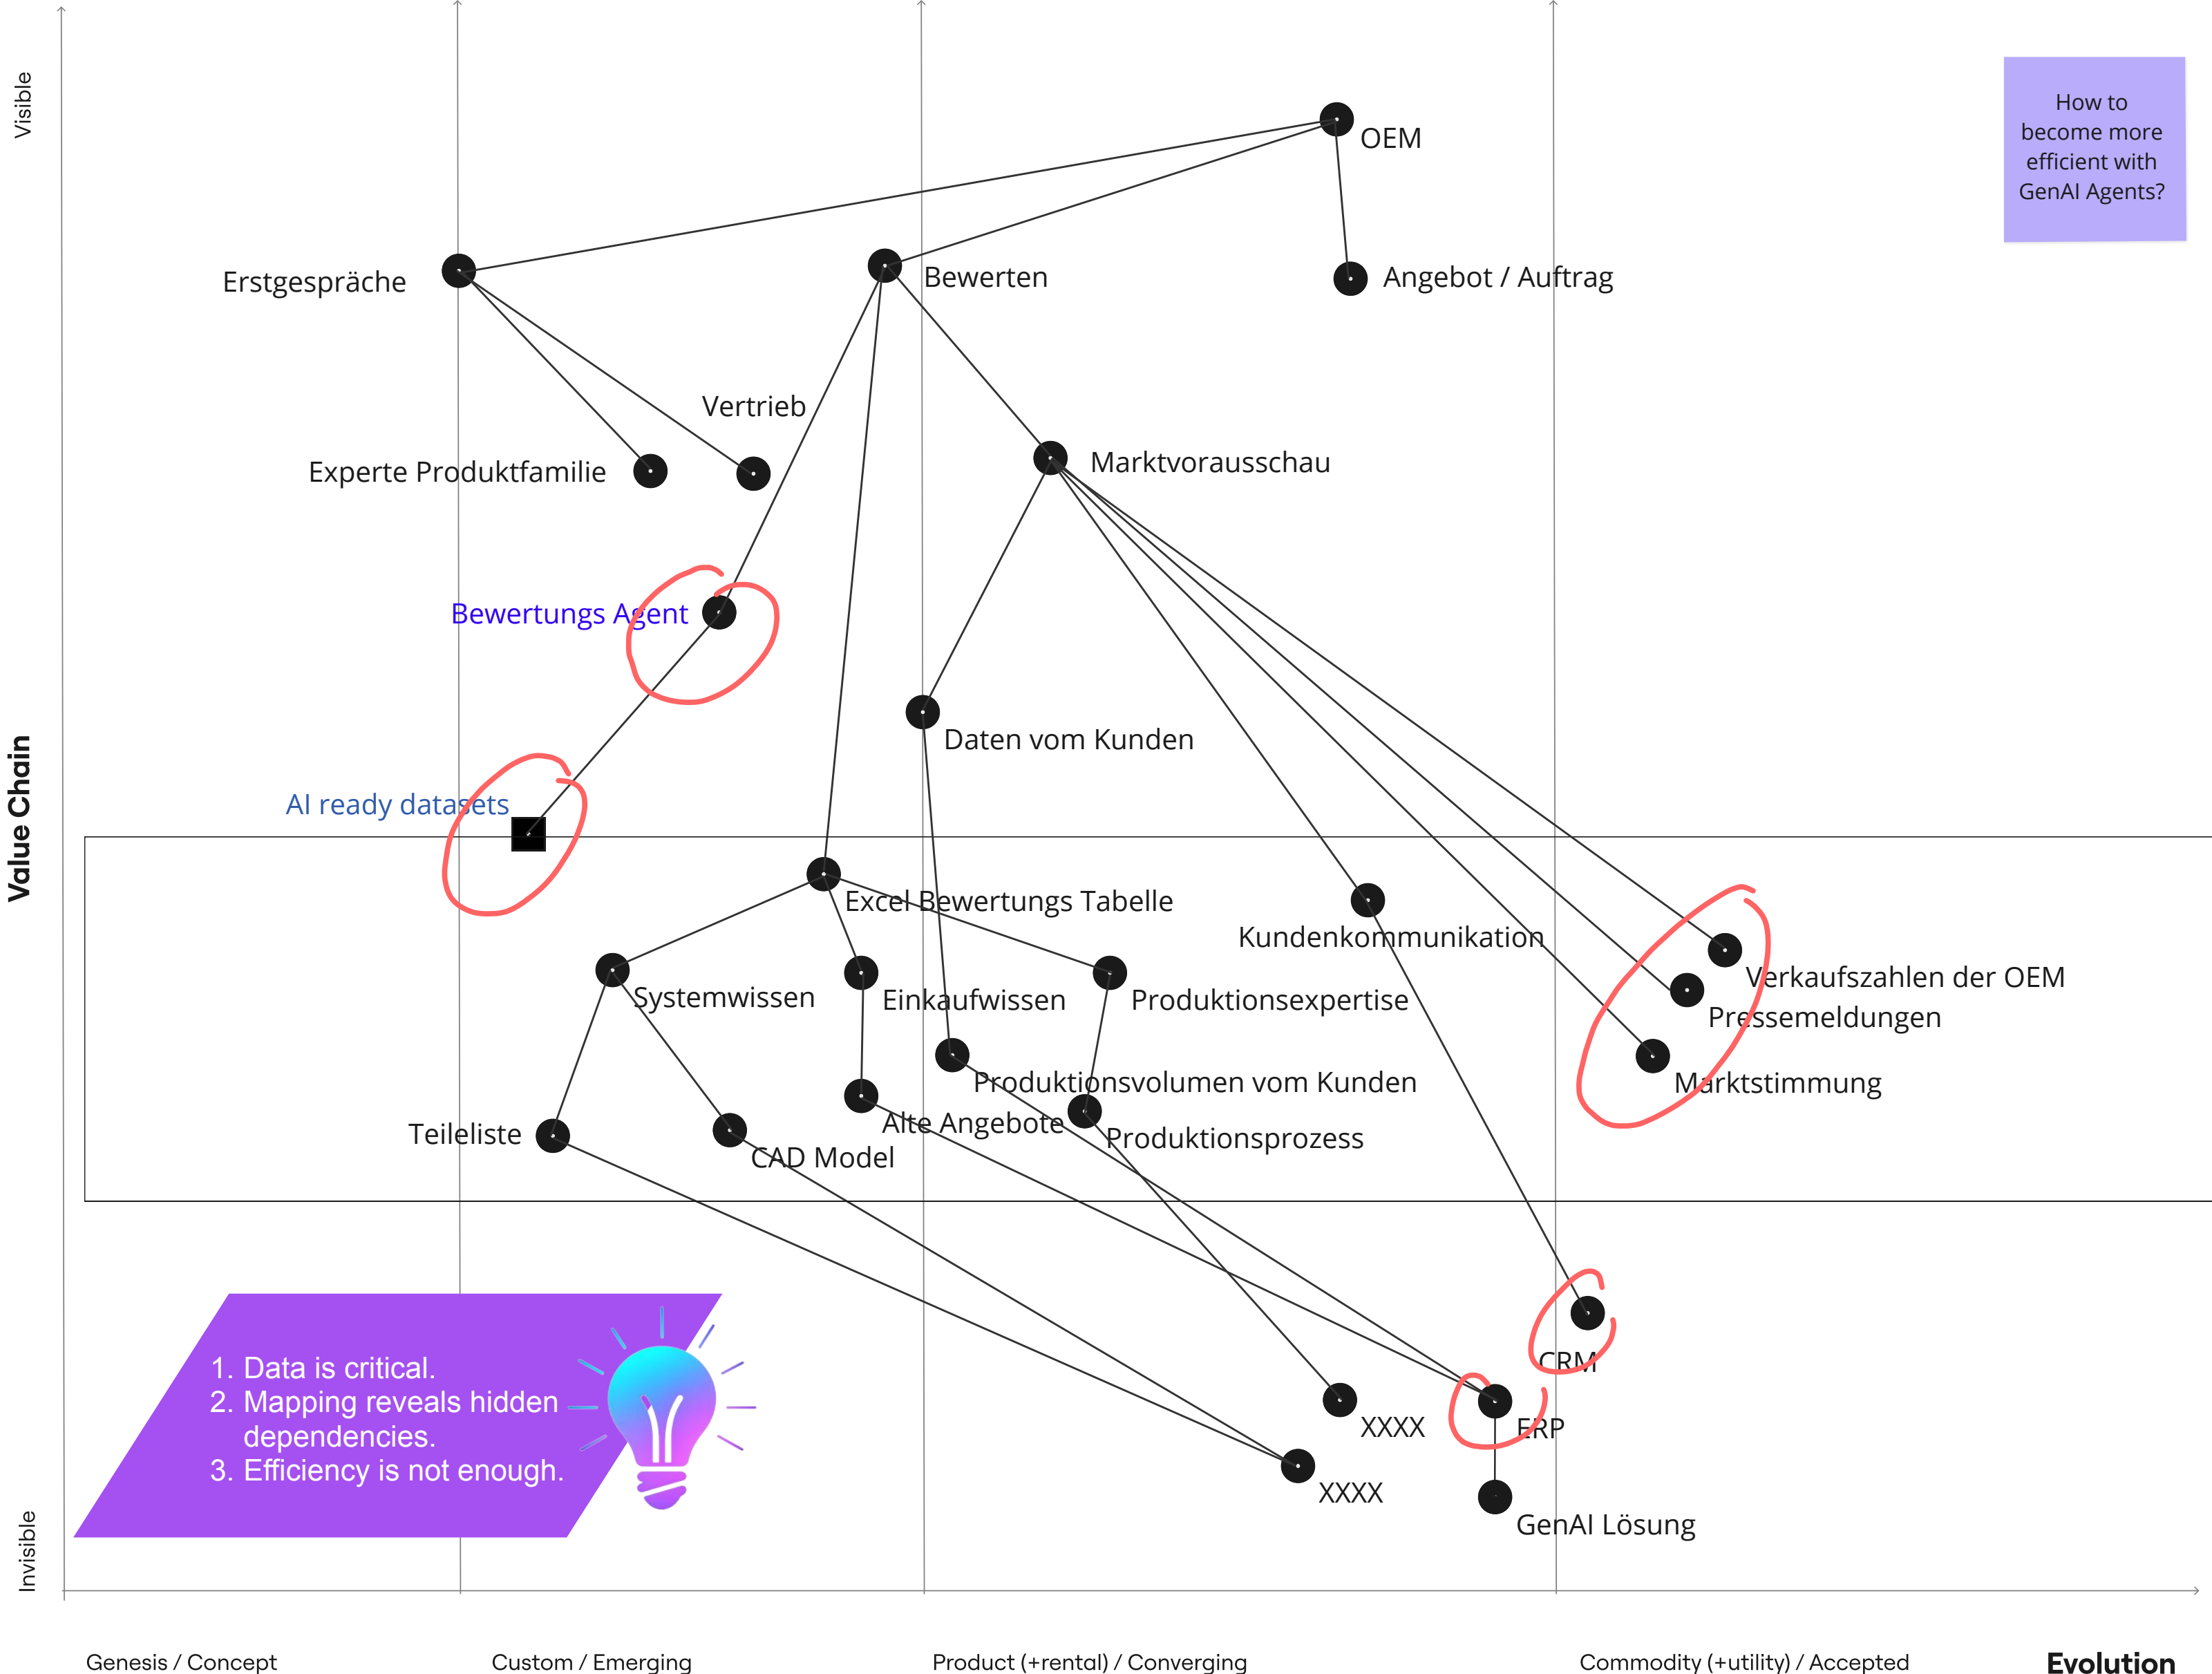

Purpose of the map:
 Understand the Generative AI market.
 How will the business models of most enterprises change?
<https://game3.info/the-strategic-answer-to-genai-is-enterprise-evolution>
 Update: 20.05.2025

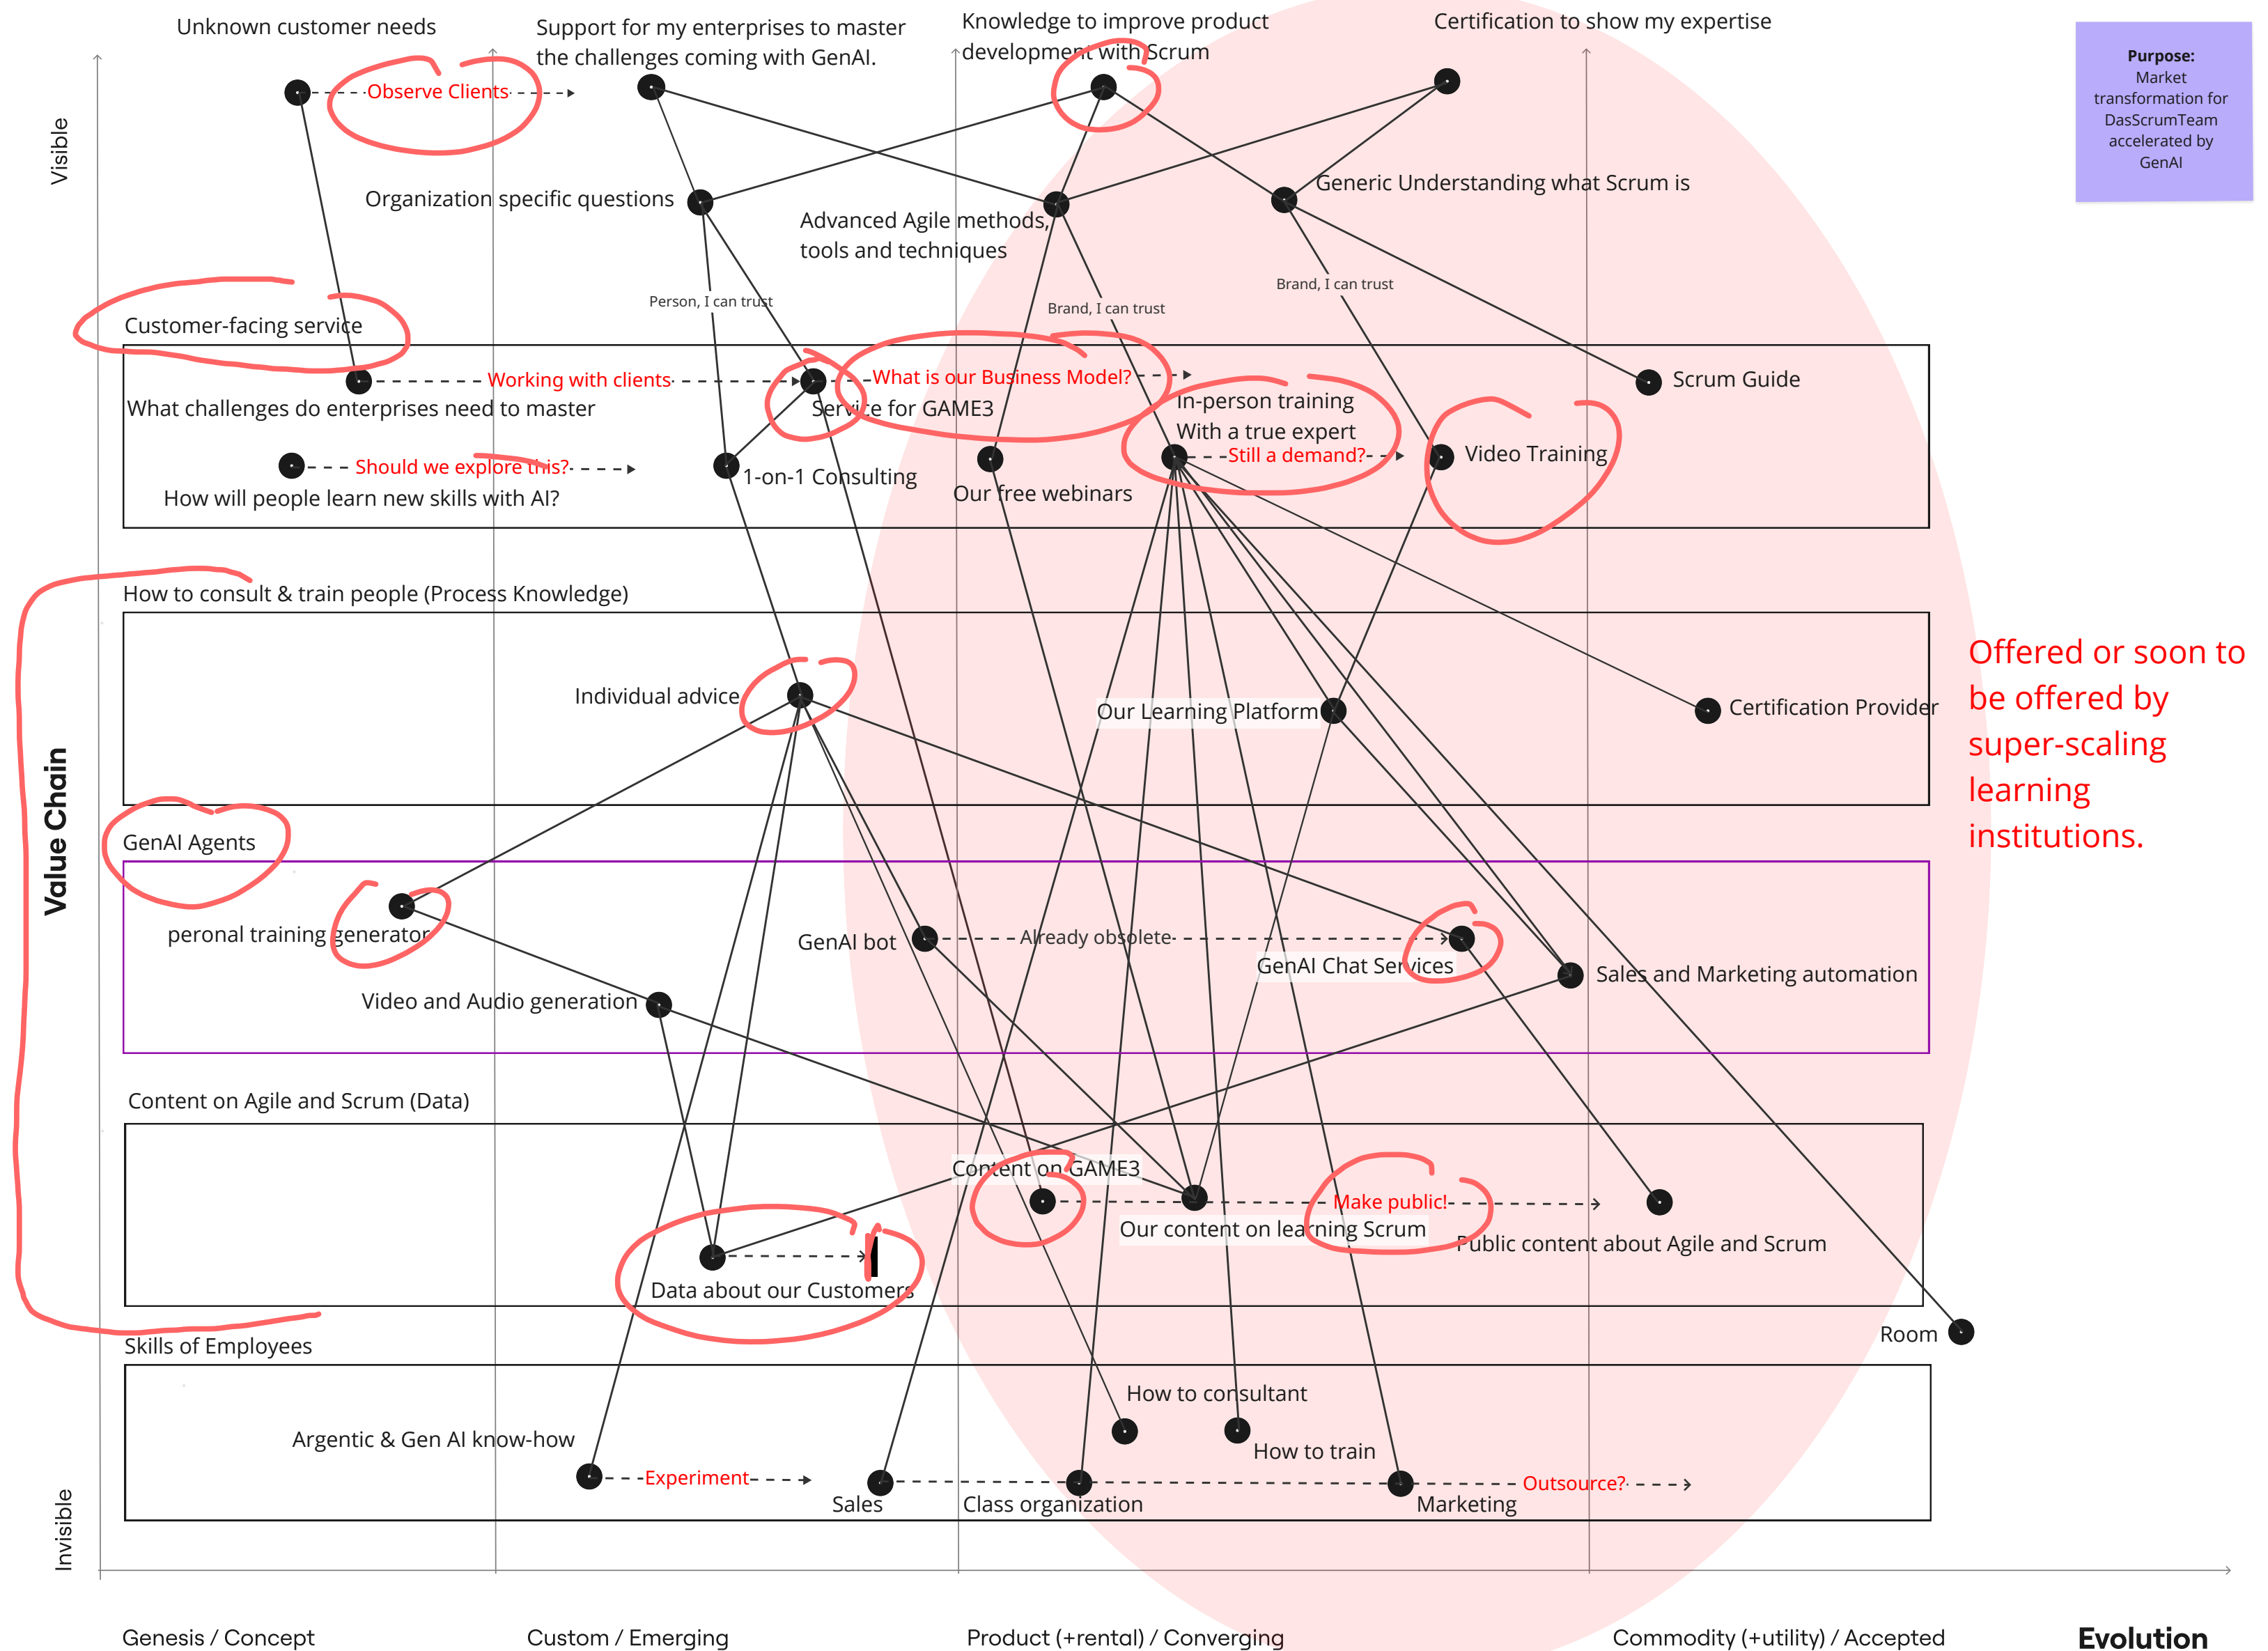

How to become more efficient with GenAI Agents?

1. Data is critical.

2. Mapping reveals hidden dependencies.

3. Efficiency is not enough.

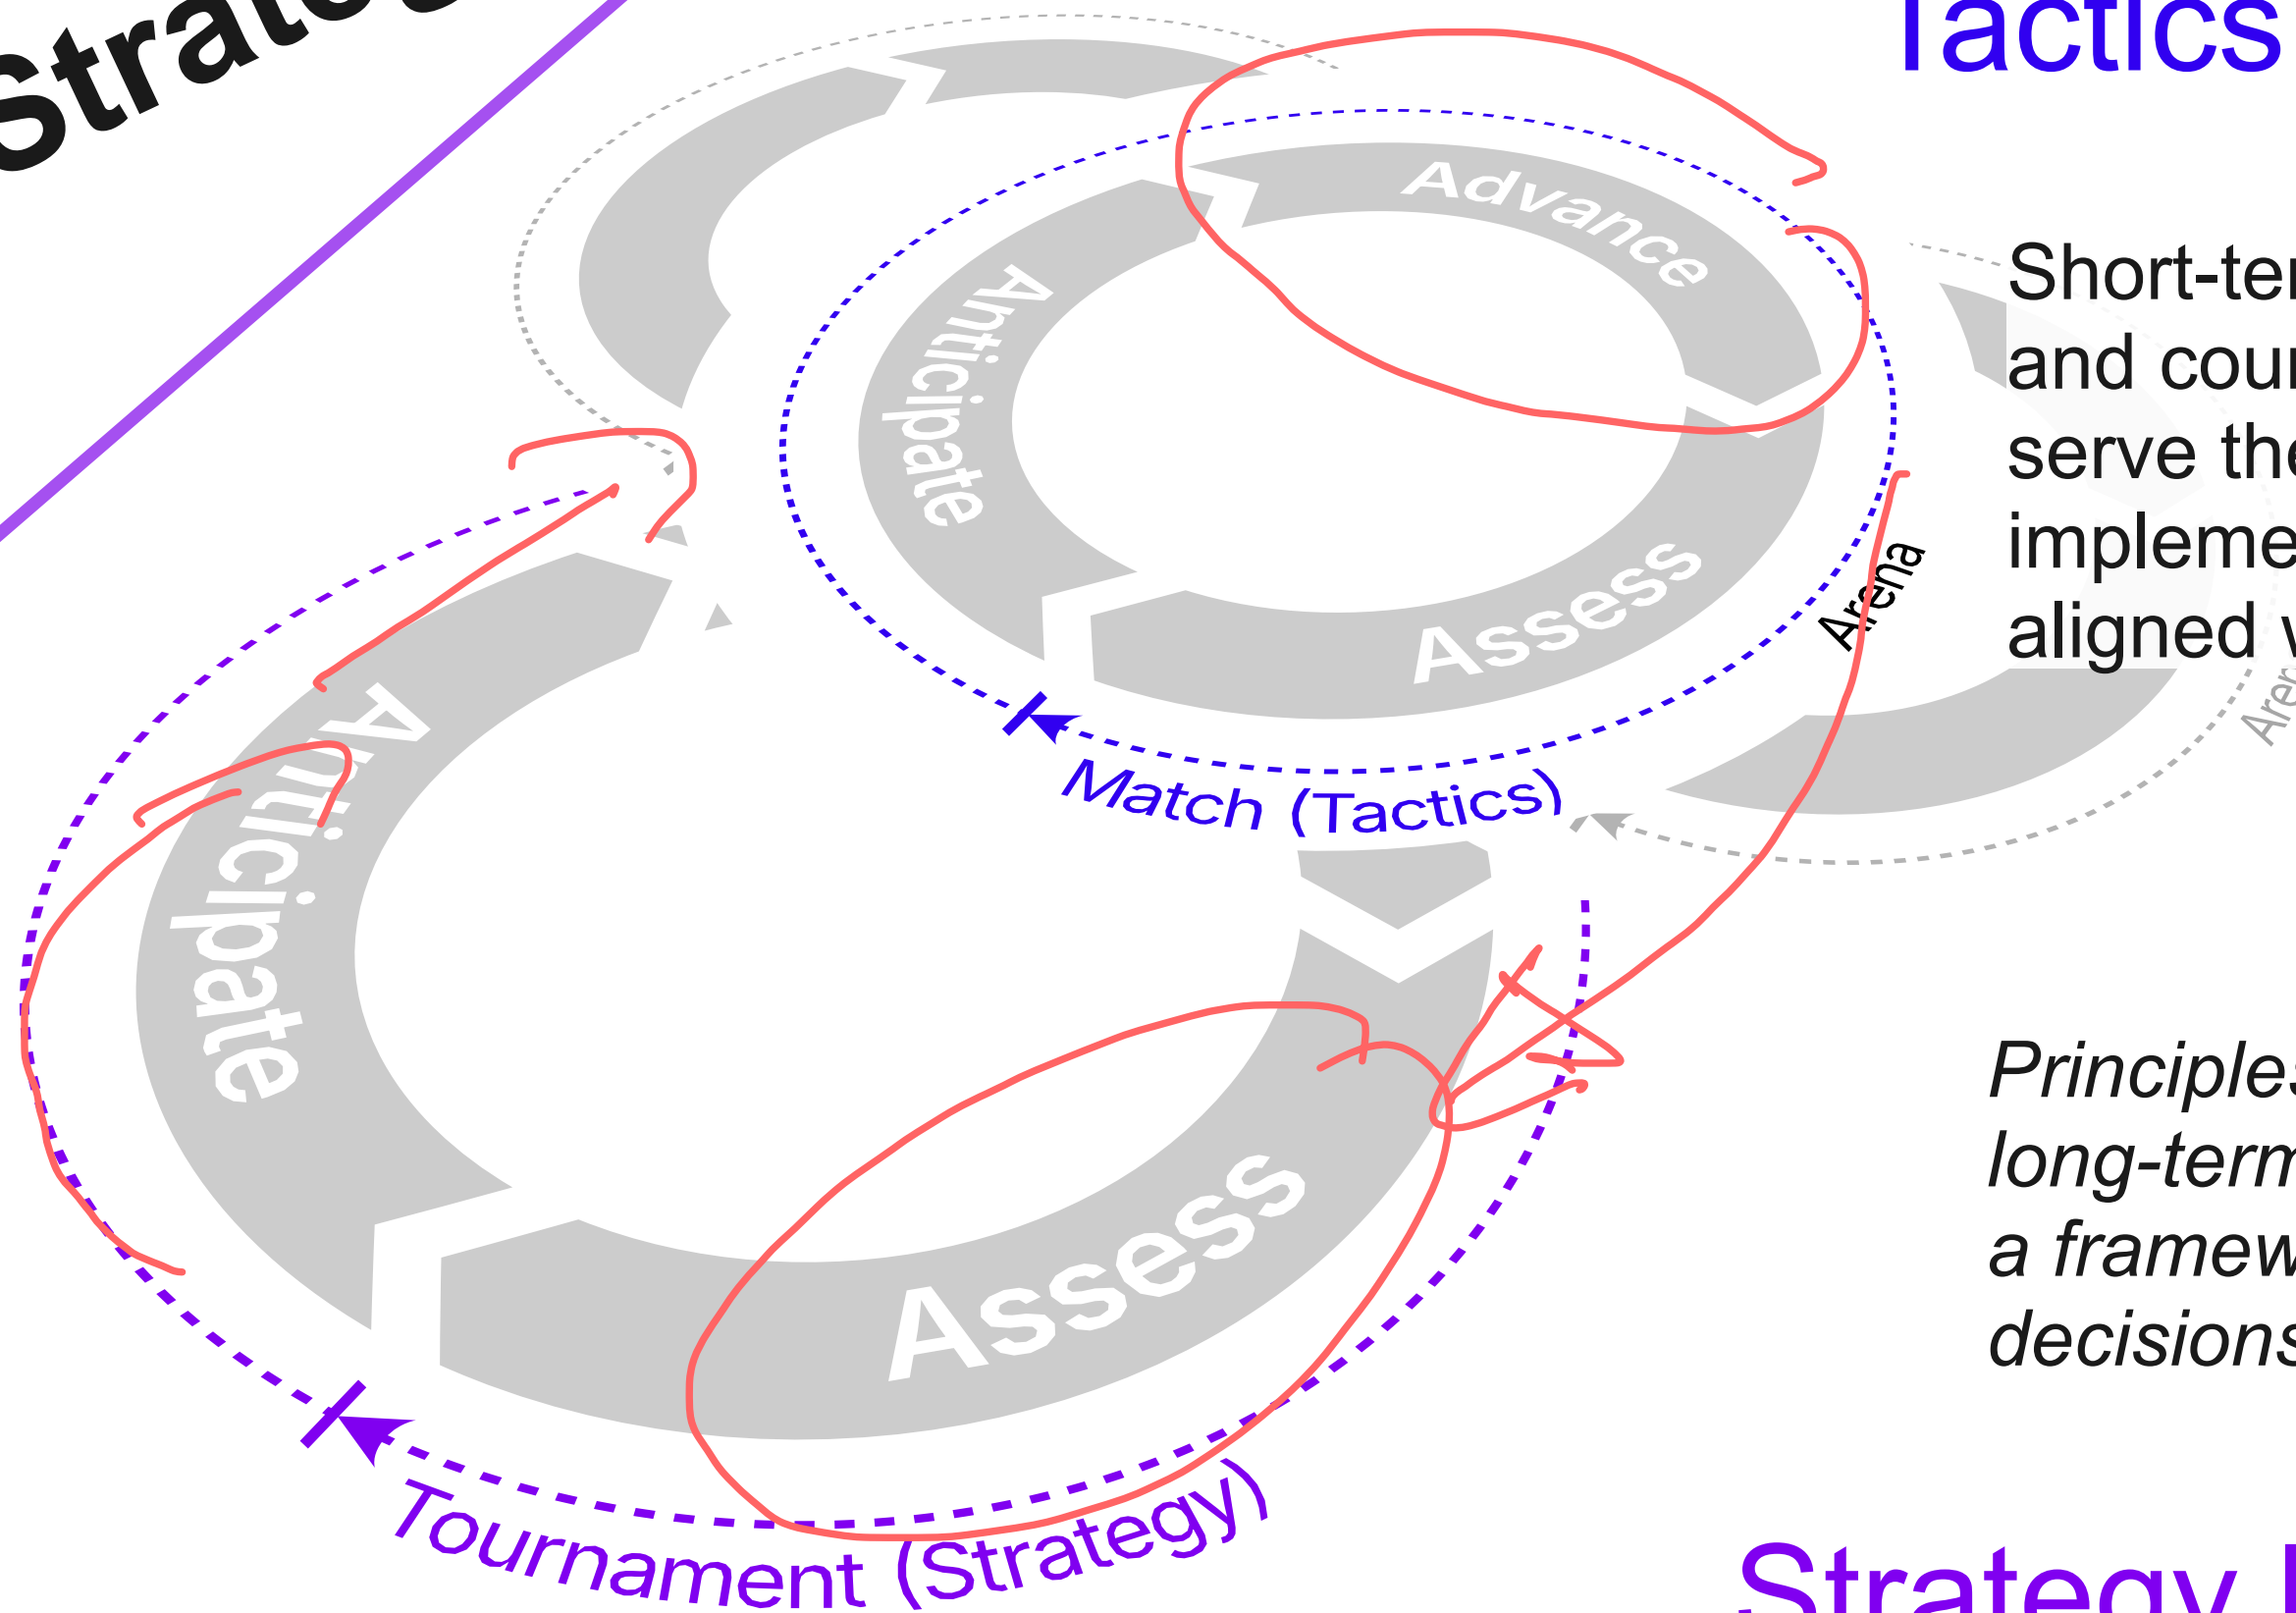

Strategy

Tactics scores goals

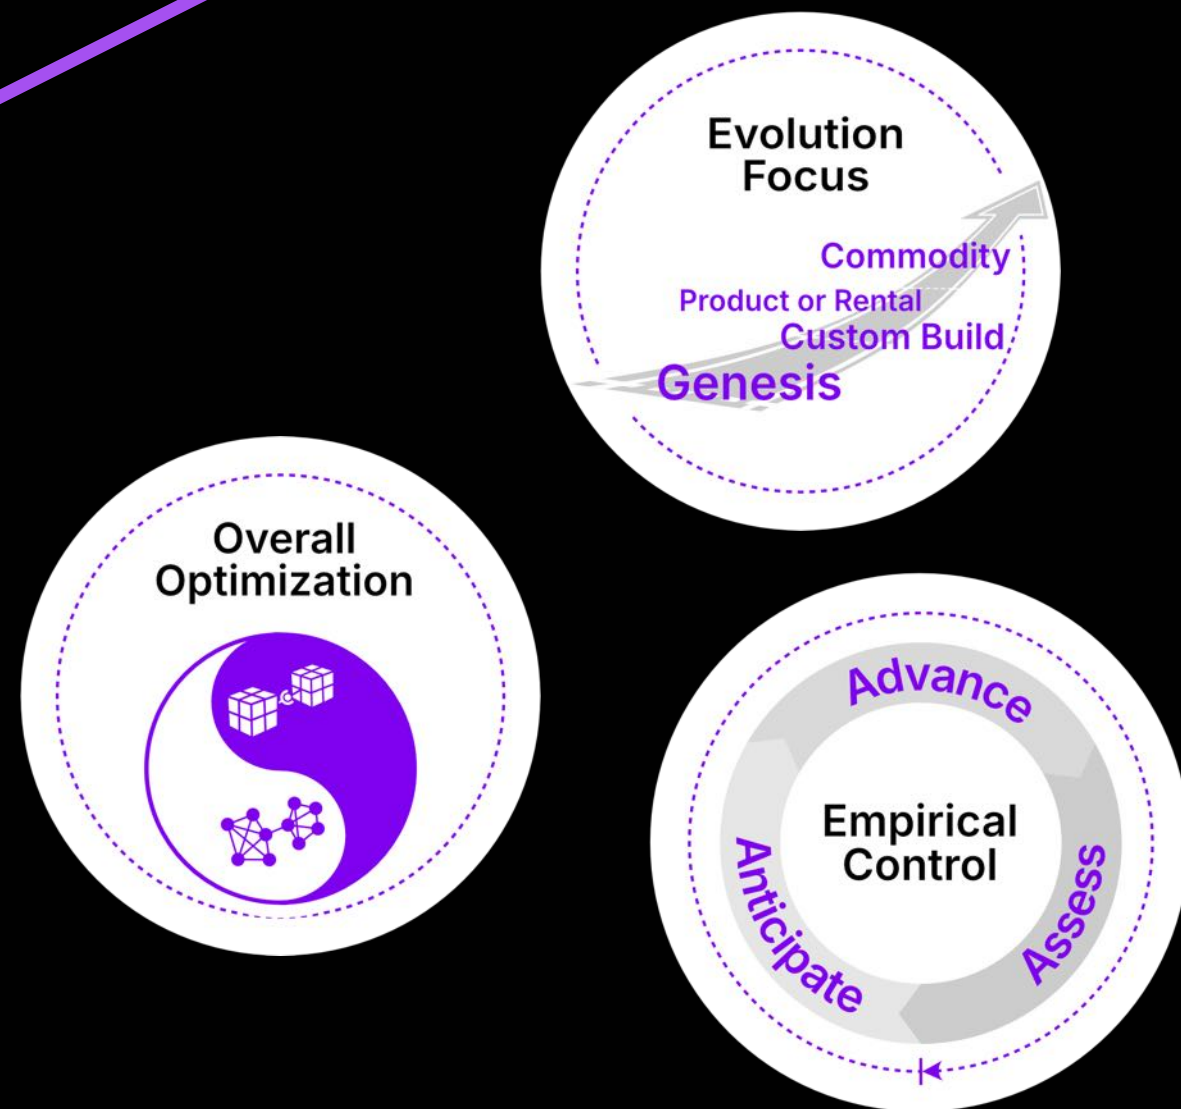

Short-term goals, plans and courses of action that serve the purpose of direct implementation and are aligned with a strategy.

Principles, **doctrines**, long-term goals to provide a framework for detailed decisions

Strategy builds Arenas

Strategic Doctrines

Wardley's Doctrine (universally useful patterns that a user can apply regardless of context)						
	Communication	Development	Operation	Learning	Leading	Structure
IV				Listen to your ecosystem	Exploit the landscape	Design for constant evolution
			Optimise flow		There is no core	No single culture
III			Do better with less	Bias towards the new	Commit to the direction	Provide purpose, mastery & autonomy
			Set exceptional standards		Be the owner	
					Inspire others	
					Embrace uncertainty	Seek the best
					Be humble	
II		Focus on the outcome Think fast, inexpensive, restrained and elegant Use appropriate tools	Manage inertia		Move fast	Think small teams
		Be pragmatic	Manage failure	Bias towards action	Strategy is iterative	Distribute power and decision making
		Use standards	Effectiveness over efficiency			Think aptitude and attitude
Phase I	A bias towards open	Know your users				
	Common Language	Focus on user needs	Know the details	Bias towards data		
	Challenge Assumptions	Remove bias and duplication				
	Understand what is being considered	Use appropriate methods

Doctrine assessment

Wardley's Doctrine assessment tool

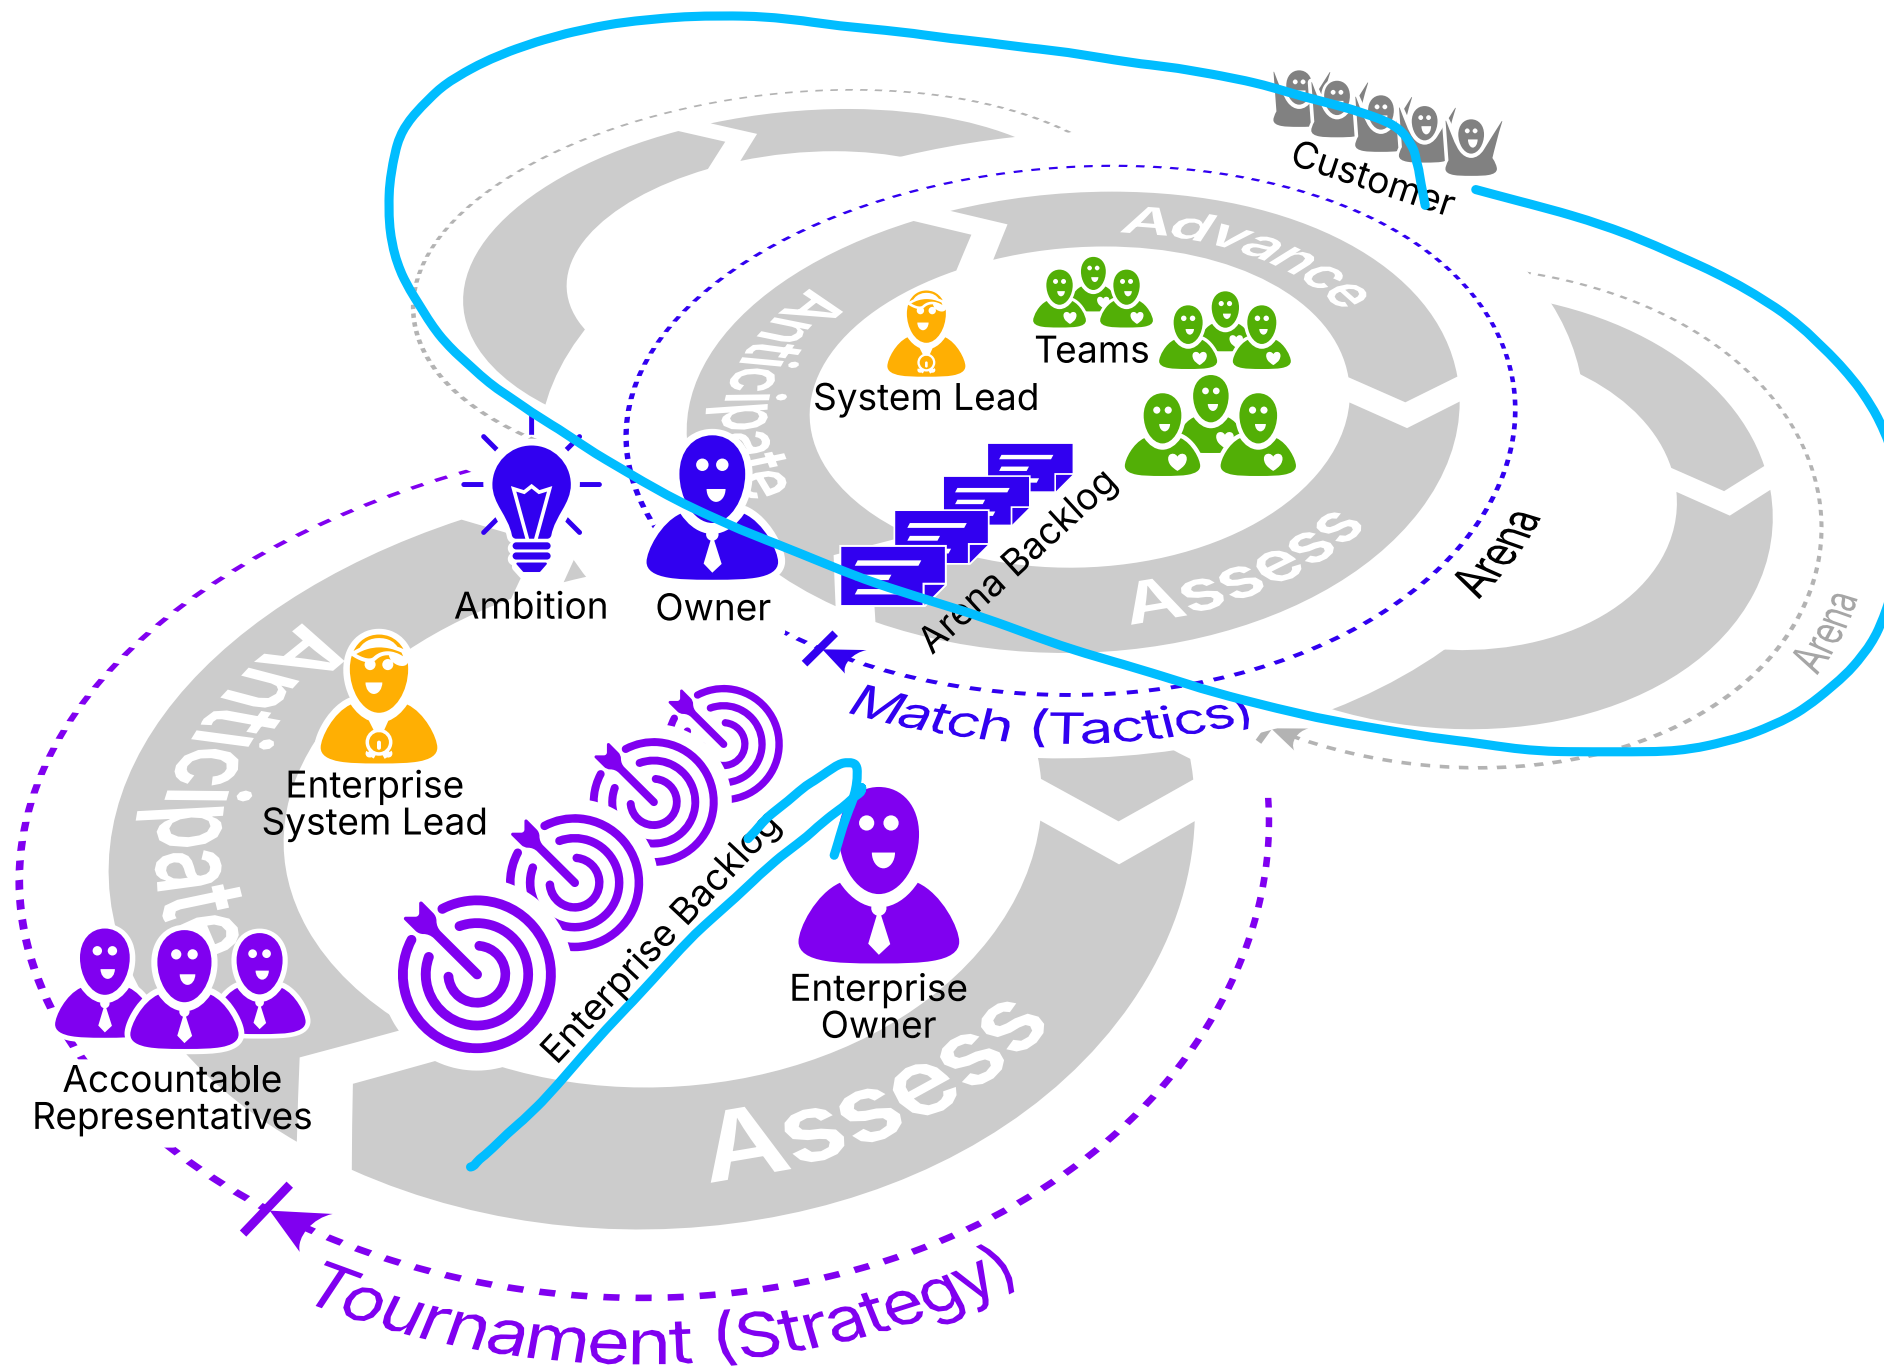

Enterprise Backlog = Strategic Goals

Planning and managing dependencies is NOT strategy

Strategy is not advancing.
Only Teams advance.

- The [Enterprise Backlog](#) is the list of all [Goals](#) that an Enterprise has not yet started to work on.
- Applicable to all Teams. Highly independent organizational Units (Arena) may have different Goals.
- A Goal should have a lifetime of at least 1 month and a maximum of 12 months. The most effective Goals typically span 3-6 months.

We can't say how our business will change because of GenAI, but we can develop a strategy now.

Empirical control at the enterprise level is the best safeguard.

Focus on evolution first, agile or efficiency comes second.

GAME3

GAME3

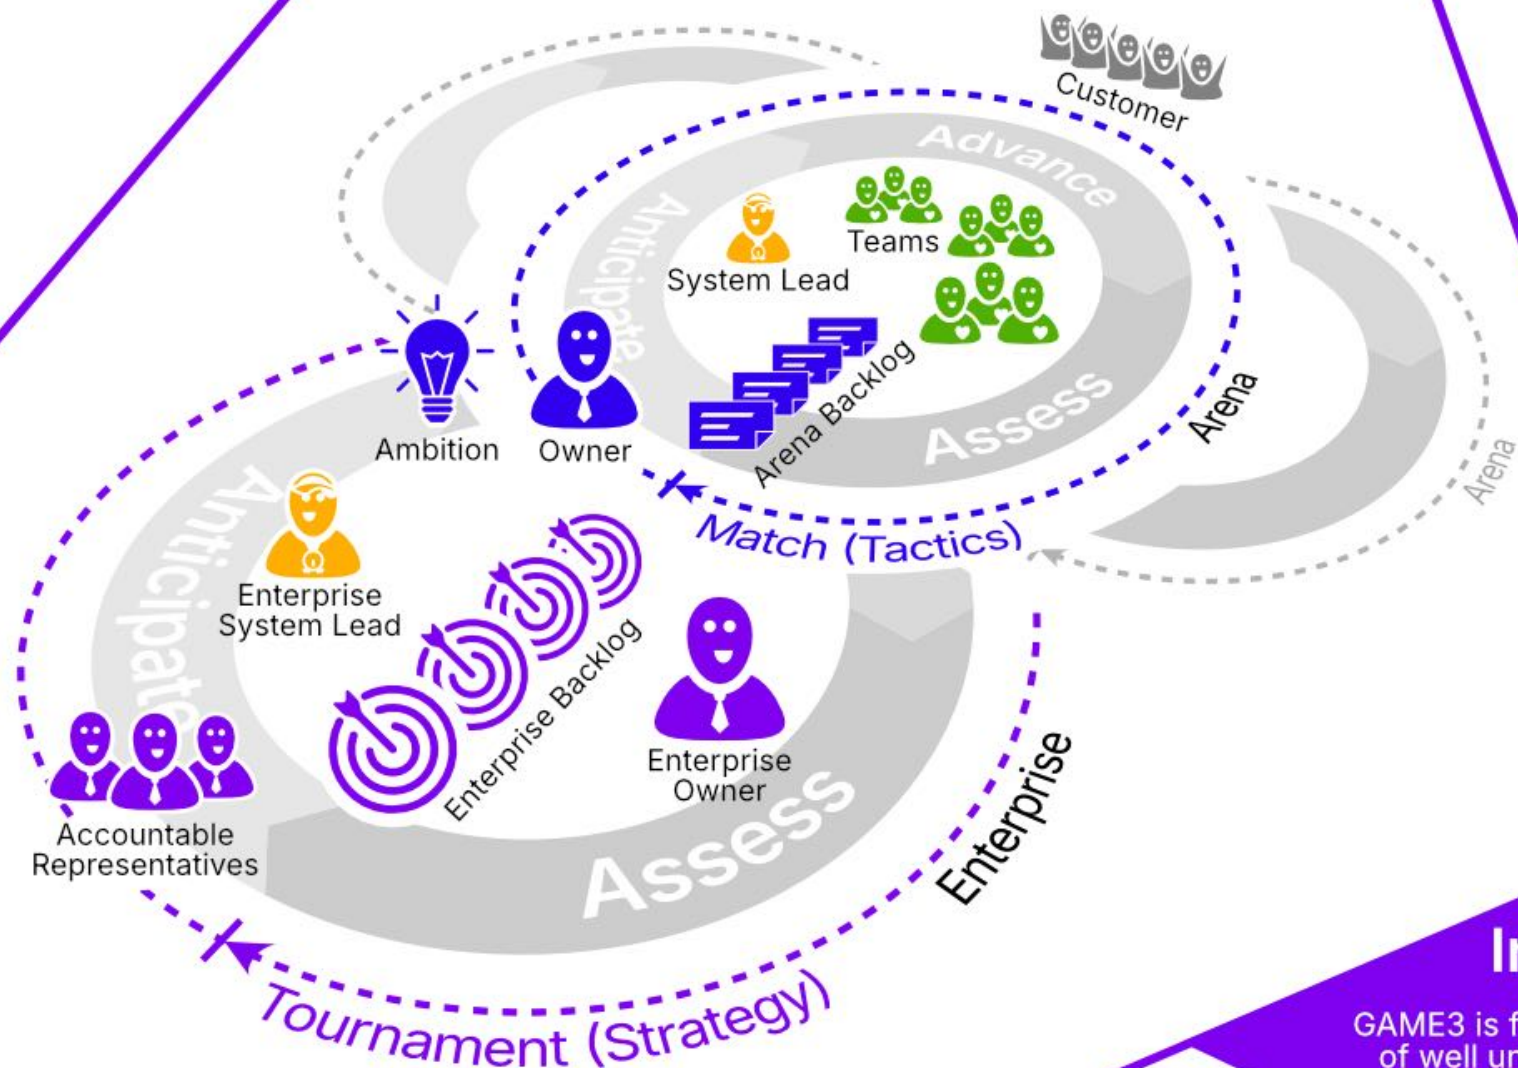

GAME3 is a framework to lead the evolution of products, services, and organization of tomorrow's enterprises.

System
GAME3 offers a straightforward and streamlined operational system. It is easy to adopt and has proven itself over decades.

Leadership

Rules

Strategy

Playbook
GAME3 does not require costly transformation projects. Instead, it establishes continuous innovation on the enterprise level. Start by following the playbook.

Interplay
GAME3 is fostering the use of well understood Agile & Lean methods like Scrum and Kanban. GAME3 gives guidance on when and how to use them.

- Scrum
- LeSS
- Cynefin
- Design Thinking
- Scrum@Scale
- Product Discovery
- Wardley Mapping
- eXtreme Programming
- Kanban
